## EDUCATION

### DEGREE

OCT-2022

B.SC(INFORMATION TECHNOLOGY) A.G ARTS AND SCIENCE COLLEGE.

### QTREE TECHNOLOGIES

MAY-2023

Frontend web development course in Qtree Technologies, Software training institute in coimbatore.

## PROJECTS

### E-shop (e-commerce website).[Project Link](#)

e-shop is an e-commerce platform designed for an optimal shopping experience. The platform includes product listings, a dynamic cart, and add to cart functionality. Built with modern frontend technologies, e-shop ensures smooth navigation and an intuitive user interface.

### Weather App -using HTML , CSS , JAVASCRIPT , WEATHERAPI.[ProjectLink](#)

This project is a Weather App that displays current weather information for any city using the weatherAPI. Users can search for a city to see its weather status, including temperature , humidity , wind speed , and more. The app also shows the local time and date in the selected city.

### Form Validation Website -using HTML , CSS , JAVASCRIPT ( DOM manipulation , Events).[ProjectLink](#)

This is a Form Validation Website built using HTML , CSS , JAVASCRIPT. It validates user input for name , email , and message fields with client-side validation before submission. Users are alerted with errors if the input does not meet the required criteria, ensuring only valid data is submitted.

### Image Slider -using HTML , CSS , JAVASCRIPT .[ProjectLink](#)

A visually appealing image slider using HTML, CSS, JAVASCRIPT. It Includes smooth scrolling and enlarges the selected(targetted) image.
